The highly tense situation on the financial and capital markets caused by the COVID-19 pandemic may in future have negative effects on the Issuer's business activities and results of operations, in particular also on its cost of capital. The Issuer's banking activities could be significantly adversely affected by, *inter alia*, a reduced ability of customers to service their credit liabilities, as well as by negative effects on the market value of the Issuer's own assets and on the value of assets which serve as collateral for the Issuer's repayment claims and/or are included in the Issuer's cover pool. In addition, any negative developments in fully consolidated and at equity accounted participations may also have a negative impact on the Issuer's net assets, earnings and financial position."

On page 21 in "Section B – Issuer" under "Element B.10 – Nature of any qualifications in the audit report on historical financial information" the following information shall be deleted and replaced by the following information:

On page 22 the information in "Section B – Issuer" under "Element B.13 – Recent Events" shall be deleted and replaced by the following information:

"Outbreak of the COVID-19 pandemic

The changed circumstances affecting the daily environment and the global economy as a result of governmental measures and interventions being taken to limit the spread of COVID-19 are likely to result in a severe recession in the Euro area with negative consequences for the Issuer. However, a precise assessment is not possible at the date of this supplement, as the overall impact is strongly dependent on how long the adverse effects of the COVID-19 pandemic will last. The longer it lasts, the more profound the negative impact on the global economy is expected to be and the smaller the currently expected catch-up effect will be in the coming months. The Issuer's banking operations could be materially adversely affected by *inter alia* a worsening of clients' ability to service their credit obligations, as well as by negative effects on the market value of its own assets and on the value of assets which serve as collateral for the Issuer's repayment claims and/or which are included in the Issuer's cover pool."

On page 33 in "Section D – Risk" under "Element D.2 – Key information on the key risks that are specific to the Issuer or its industry": the following new risk factor shall be added after the risk factor: "There is a risk that economic and political developments may have a negative impact on the business and refinancing opportunities of the Issuer (economic and political risk)":

Die durch die COVID-19 Pandemie stark angespannte Lage an den Finanz- und Kapitalmärkten kann in der Zukunft negative Auswirkungen auf die Geschäftstätigkeit und die Geschäftsergebnisse, insbesondere auch auf die Kapitalkosten der Emittentin haben. Die Banktätigkeit der Emittentin könnte unter anderem durch eine verminderte Fähigkeit der Kunden, ihre Kreditverbindlichkeiten zu bedienen, sowie durch negative Auswirkungen auf den Marktwert eigener Vermögenswerte und auf die Werthaltigkeit von Vermögenswerten, welche als Sicherheit für die Rückzahlungsansprüche der Emittentin dienen und/oder im Deckungsstock der Emittentin enthalten sind, wesentlich nachteilig beeinträchtigt werden. Darüber hinaus können sich auch etwaige negative Entwicklungen bei vollkonsolidierten und at equity bilanzierten Beteiligungsunternehmen negativ auf die Vermögens-, Ertrags- und Finanzlage der Emittentin auswirken."

On page 43 the information in "Abschnitt B – Emittentin" under "Punkt B.13 – Letzte Ereignisse" shall be deleted and replaced by the following information:

"Ausbruch der COVID-19 Pandemie

Die geänderten Umstände, die aufgrund der staatlichen Maßnahmen und Interventionen zur Bekämpfung der Verbreitung von COVID-19 das tägliche Leben und die weltweite Wirtschaft erfasst haben, machen eine schwere Rezession in der Eurozone mit negativen Folgewirkungen auf die Emittentin wahrscheinlich. Eine konkrete Einschätzung ist aber zum Datum dieses Nachtrags nicht möglich, da die Gesamtauswirkung stark davon abhängig ist, wie lange die Beeinträchtigungen aufgrund der COVID-19 Pandemie wirken werden. Je länger diese andauert, desto tiefgreifender sind die negativen Auswirkungen auf die weltweite Wirtschaft zu erwarten und desto geringer wird der derzeit erwartete Nachholeffekt in den kommenden Monaten ausfallen. Die Banktätigkeit der Emittentin könnte unter anderem durch eine verminderte Fähigkeit der Kunden, ihre Kreditverbindlichkeiten zu bedienen, sowie durch negative Auswirkungen auf den Marktwert eigener Vermögenswerte und auf die Werthaltigkeit von Vermögenswerten, welche als Sicherheit für die Rückzahlungsansprüche der Emittentin dienen und/oder im Deckungsstock der Emittentin enthalten sind, wesentlich nachteilig beeinträchtigt werden."

On page 55 in "Abschnitt D – Risiken" under "Punkt D.2 – Zentrale Angaben zu den Risiken, die der Emittentin eigen sind": the following new risk factor shall be added after the risk factor: "Es besteht das Risiko, dass wirtschaftliche und politische Entwicklungen negative Auswirkungen auf die Geschäftstätigkeit und die Refinanzierungsmöglichkeiten der Emittentin haben (Wirtschaftliches und politisches Risiko)":

"• Die weltweite COVID-19 Pandemie (Coronavirus) kann erhebliche nachteilige Auswirkungen auf die Emittentin und ihre Kunden haben (**Risiko der COVID-19 Pandemie**)"

III. SUPPLEMENTAL INFORMATION RELATING TO THE SECTION "RISK FACTORS – RISK FACTORS REGARDING RLB NÖ-WIEN"

On page 64 the following new information shall be added at the end of the risk factor "There is a risk that adverse market conditions or unfavourable economic conditions may negatively affect the equity investments held by the Issuer and this may in turn have a significant negative effect on the Issuer's business, results of operations and financial condition (participation risk)":

"In addition to the risks mentioned above, RLB NÖ-Wien's direct and indirect participations are currently subject in particular to risks in relation to the outbreak of the COVID-19 pandemic and the measures taken or failed to take by governments, companies and others to prevent the spread of this pandemic. Among other things, the banking activities of the RBI Group could be significantly adversely affected by a reduced ability of customers to service their credit liabilities or due to a statutory temporary deferral of these liabilities, by a restriction or suspension of dividend payments by subsidiaries to RBI or a deterioration of the liquidity situation of RBI due to tense financial market conditions. All of this could have a negative effect on the Issuer's accounting of RBI at equity. In a publication of insider information pursuant to Article 17 of the Market Abuse Regulation of 8 April 2020, RBI announced that it had decided to postpone its Annual General Meeting to a later date in 2020. In accordance with the recommendation of the European Central Bank and the Austrian Financial Market Authority on dividend payments and in view of the uncertainties caused by COVID-19, RBI's dividend proposal for the 2019 financial year could be reviewed as soon as the financial effects of COVID-19 have become clearer."

On page 75 the following new risk factor shall be added after the risk factor "There is a risk that economic and political developments may have a negative impact on the business and refinancing opportunities of the Issuer (economic and political risk)":

"The worldwide COVID-19 pandemic (Coronavirus) may have significant adverse effects on the Issuer and its clients (risk of COVID-19 pandemic)

The Issuer is directly and through its clients exposed to risks in relation to the outbreak of the COVID-19 pandemic and the measures taken or failed to take by governments, companies and others to prevent the spread of this pandemic.

The worldwide rapid spread of the COVID-19 pandemic and the resulting business restrictions and cutbacks could lead to deterioration of financial conditions of the Issuer's customers, in general, and

certain businesses, e.g. trade and commerce, hospitality/accommodation, construction, the automotive industry including its suppliers, tour operators/travel agencies, transportation, aviation and event organization, in particular. As a result, the Issuer's loan portfolio quality could suffer or deteriorate, and non-performing loans may increase, because the Issuer's customers may not, or not timely, be able to repay their loans, and/or collateral securing these loans may become insufficient and no new collateral could be provided. This could result in credit losses and make necessary to form increased loan loss provisions.

In response to the COVID-19 pandemic and the expected economic crises, the Austrian government has already taken measures to slow down the spread of the virus as well as intervention measures, such as payment moratoria, bridging financing and other measures. It will probably continue to do so to the extent it deems necessary to protect citizens (health) and the Austrian economy. If these or similar governmental intervention measures in Austria and globally do not have the desired effect, this could have a material adverse effect on the Issuer's business, financial condition and results of operations through less interest and fee income, higher risk costs, negative valuation results of financial instruments and investments or higher other costs.

The COVID-19 pandemic as well as the measures to confine the COVID-19 pandemic may directly negatively impact the business operations of RLB NÖ-Wien should its employees fall ill, be isolated or should business premises be locked or shut down. There is also the risk that the Issuer will not be able to continue its business as usual and that the Issuer's IT systems will be overloaded if a large proportion of its employees have to work exclusively from home.

The COVID-19 pandemic may also have a negative impact on the market value of the assets that are financed by the Issuer (such as bonds and participations), serve as collateral for the Issuer's repayment claims and/or are included in the Issuer's cover pool. This is especially a result of the risk of high vacancies in (or loss of rent in relation to) commercial properties, such as tourism facilities, accommodation facilities and restaurants, retail centers, cancellation of trade fair halls and exhibitions, and potential bankruptcies of tenants, sponsors, guarantors and other providers of collateral, which may impair the solvency of clients of the Issuer and may lead to defaults under financings provided by the Issuer.

Furthermore, the COVID-19 pandemic led already to a significant increase in volatility in global capital markets as well as to a rise in spreads, whereby this trend may continue. This may have a negative impact on the Issuer's refinancing costs. As a result of the yet unforeseeable developments in connection with the COVID-19 pandemic, the Issuer may increasingly be faced with deferrals of customer loans, drawings of committed framework loans by customers or possibly a reduction in deposits. Such negative developments in RLB NÖ-Wien's funding and liquidity situation could have material adverse effects on the Issuer's asset, financial and earning position."

IV. SUPPLEMENTAL INFORMATION RELATING TO THE SECTION "RAIFFEISENLANDESBANK NIEDERÖSTERREICH-WIEN AG"

On page 576 in subsection "Trend Information" the first sentence shall be deleted and replaced by the following information:
